PROFESSIONAL SUMMARY

MERN Stack Developer and Technical Instructor with experience building scalable web applications using **Mongo DB, Express, React, and Node.js**, developing ERP automation solutions, and training students in full-stack development with real-world project delivery.

EDUCATION

Master of Computer Applications (MCA) — IGNOU | 2023–2025

Bachelor of Computer Applications (BCA) — IGNOU | 2020–2023

SKILLS

- **Frontend:** React.js, JavaScript, Redux, HTML, CSS, Bootstrap, Tailwind
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, WebSockets, Microservices
- **Database:** MongoDB, MySQL
- **Tools & DevOps:** Git/GitHub, Docker, AWS (basic), CI/CD, Postman, VS Code

EXPERIENCE

Lecturer, Developer, Research Contributor

Avviare Educational Hub | Noida, U.P.

July 2025 – Present

- Educating 200+ students in full-stack development (MERN), cloud computing, and AI, while guiding them to build 6+ deployable projects to final year student.

Lecturer, Full Stack Developer

Haridwar University | Roorkee

August 2024 – June 2025

- Trained **100+ students** in MERN, PHP, and AI with industry-oriented projects.
- Developed automated ERP modules for attendance & grade management, reducing workload **40% campus-wide**.
- Published research in **IJSREM (DOI:10.55041/IJSREM50643)**.

Full Stack Developer

Tech Stack: React, Node.js, Express, MongoDB, Laravel, REST APIs, JWT Auth, Git, AWS

BSA Tech | Allahabad (Onsite & Remote)

October 2022 – August 2024

Tech Stack: React, Node.js, Express, MongoDB, Laravel, REST APIs, JWT Auth, Git, AWS

- Developed ERP system using **PHP (Laravel) and React.js**, reducing processing errors by **45%**.
- Built ERP modules and handled on-site deployment, including user training and testing.
- Designed authentication, dashboards, and automation workflows across departments.

IT Trainer, Developer

NSIC | Okhla, New Delhi

February 2024 – July 2024

- Taught full-stack development focusing on real-time project execution and deployment.

- Trained **50+ students** in Java, PHP, Python, improving project quality & employability skills.

PROJECTS

- Mentored 20+ teams to build scalable apps (e-learning, task managers), improving their code quality by 60% through Agile reviews.
- Developed ERP modules for schools/universities (PHP/Laravel + React) – automated admissions and payroll, cutting processing time by 40%.
- Built a university QR attendance system (Python/Django + React Native) that reduced roll-call time by 70% and integrated with existing databases.
- Created freelance websites for 15+ clients through agencies, using modern stacks with 100% on-time delivery. Designed a secure chat app (Node.js + WebSockets) supporting 500+ concurrent users with encrypted messaging.

ADDITIONAL INFORMATION

- Mentored **20+ teams** on scalable app architecture and Agile development.
- Strong communication and collaboration skills suitable for cross-functional engineering teams.
